ARIZONA WEEKLY NEWS BUDGET.

What Has Happened in the Territory Since Our Last Issue.

ALL KINDS OF INFORMATION.

New Business Enterprises—Good Year for the Man With the Hoe, and the Owner of Live Stock—Everybody Except the Editor Expects to Have Money to Burn.

The splendid gymnasium erected by the Copper Queen company at Bisbee is nearing completion.

The Arizona Copper company, of Clifton, has received six new converters, which will increase the output of copper.

Mayor Emmanuel, of Tombstone, who was defeated for reelection by A. Wentworth, by two votes, has begun a contest.

D. D. McDonald, formerly of Jerome, will soon begin the publication of a weekly newspaper at Prescott, to be called the Herald.

An additional force of 150 men has been put on construction work on the Phoenix & Eastern railroad, which is being rapidly pushed toward Tempe.

The Shannon Copper company's 500-ton concentrator at Clifton is nearing completion. The first 250-ton section is expected to be in operation early in January.

Chas. E. Fredericks, an old-timer of Tombstone, and prominent Mason, died on November 11. He was numbered among the early Hassayampers and was known by nearly all of the old-timers from all parts of the territory.

Through the intercessions of H. H. Bru, of the bank, the Western Union Telegraph company has established an office at Thatcher. The office is located in the bank building and the business will be conducted by Mr. Bru.

The Mexican customs inspectors are rigidly enforcing the new custom law at the Nogales port of entry. They play no favorites, and all who cross from the American side with dutiable stuff, no matter how little, must pay duty.

Very heavy shipments of cattle are being made from Wilcox, owing to the scarcity of feed in that section. Shipments will aggregate 20,000 head, and most of them have been purchased by the Kern County Land company, of California.

The steel frame-work on the Copper Queen smelter is well under way, and may be seen from town. The work is now practically complete on the planing and sawmill. This industry will begin work as soon as power is obtainable.—Douglas Dispatch.

The sessions of the senatorial statehood committee are secret. They listen to about twenty witnesses a day, and everything is taken down, there being two stenographers in attendance on the committee. In New Mexico they have to use an interpreter. When they reach Arizona they can dispense with an interpreter.

The Miner states that the sale of lots in the new South Bisbee townsite will begin about the first of the year. The Bisbee West company has just ordered \$20,000 worth of pipe with which to pipe water to the new townsite. In the meantime the 200 acres will be platted and cut up into lots. "This," adds the Miner, "will be the beginning of Greater Bisbee and will start us on to that 25,000 population mark."

Sam Poppovich, an oiler at the Copper Queen smelter, was killed and his body horribly mangled in the machinery, last Friday morning. The jumper he wore caught in a belt and drew him into the rapidly revolving wheels. Both legs below the knees were torn off and nearly every bone in the man's body was broken. Poppovich was a foreigner and leaves a wife and three children and an aged mother in the old country.

The new Southern Pacific script book sold to traveling men by the Southern Pacific company, would indicate that that system has pretty thoroughly absorbed the G. V. & N. and several other small lines in Arizona. A permanent agreement has evidently been arrived at between the company and the leading mines at Globe, whereby the Globe people can resume extensive operations at a profit.—Bisbee Review.

The Era is informed on the very best of authority that the Coronado Copper company, that recently took over the McLean group of claims on the Coronado mountain, near Metcalf, are meeting with most substantial encouragement in their development work, and has uncovered an eight-foot vein of 15 per cent sulphide ore, which is a strike of no small importance, even in this

district of large bodies of rich ore. The company has paid for their claims and are pushing development work in several places.—Copper Era.

An enterprise of no small importance is about to be undertaken at Greaterville. The camp now has about sixty men at work on the extensive placer fields, but operations have been hampered by lack of water. The company is now considering plans for an enormous dam in one of the numerous canyons near their workings. The construction of this storage dam will cost in the neighborhood of \$250,000. It would furnish an abundance of water for the diggings, and would undoubtedly make Greaterville a big camp.—Tucson Citizen.

The Southern Pacific will build to Douglas. This is now an assured fact, and within twelve months we will hear the whistle of an "Espee" engine within the limits of Douglas. Four surveys have already been made, the last party coming into Douglas less than ten days ago. In the last surveying outfit there were about ten in the party, who spent some time examining the field for depot grounds, warehouses, roundhouse and other buildings. This will add another feature to Douglas and make it one of the greatest railroad centers in southern Arizona.—Dispatch.

Mr. Herbert Brown, formerly superintendent of the penitentiary at Yuma, was among those who attended the grand lodge of the Masons. He returned to Arizona a week ago from an extended trip through the east. Mr. Brown is an old-time Arizonan and has been prominently associated with many enterprises in the territory. For a long time he was in the newspaper field, and was for years proprietor of the Tucson Citizen. He left this morning for San Francisco on a short business trip. In a few weeks he will return and assume the management of the Randolph hotel at Yuma, and will also open a real estate office in that city.—Phoenix Gazette.

MORE GOLD AT CONGRESS

Important Discoveries of the Yellow Metal Adjacent to the Congress Mine.

In holdings adjacent to the Congress mine, which is the greatest gold mine in the territory, rich veins have just been discovered which have created the most intense excitement in mining circles.

Prominent New York men, among whom are S. P. Hooker, O. F. Woodward and C. N. Keeney, of LeRoy, N. Y., recently associated themselves to develop what is known as the Senate property, adjacent to the Congress. The ground was avoided by the Congress Gold company, which regarded the formation as barren. The New York men have overturned expert predictions, and at the base of a 400-foot shaft, located within 700 feet of the Congress shaft, have exposed four ledges running in the same regular trend as the Congress veins and bearing permanent deposits of ore as rich as that displayed in the big mine at the 3,200-foot level. Experts fresh from the scene of the new strike declare that the veins promise to outstrip in extent those of the Congress mine.

The Congress company has recently been very anxious to secure control of all adjoining ground which appears to be mineralized. About a year ago it expended large sums of money in buying adjoining mineral ground which it had overlooked, and upon one or two of these claims shafts have been sunk into the richest ledges of the gold mine.—Los Angeles Herald.

Sobriety.

It is a fact proved by drinking statistics that America is becoming more temperate, but the best authorities do not attribute the improvement to the effects of legal penalties. Hard drinkers are no longer countenanced by desirable society. This is one reformatory force, and a stronger one yet is the increasing demand in many lines of business for men who are always sober and reliable.—New York World.

A serum which, it is declared, will combat scarlet fever, has been discovered by Dr. G. A. Charlton, Rockefeller fellow of pathology in the medical faculty of McGill university. Tests which have been made with the serum indicate that the importance of its discovery is as great as that of anti-toxin in diphtheria cases.

Now's Its Chance.

It is now claimed for Christian Science that it can cure bad temper as well as disease. It would have a good chance to prove its claim these post-election times.—Baltimore American.

Cured of Piles After Forty Years.

Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. Globe Drug Store, E. J. Roberts.

From a Pastor

"I am the pastor of the Baptist Church at Port Jervis, N. Y., and sometimes am called upon to take part in evangelistic work away from home. Not long ago I went to Sandy Creek, N. Y., which is swept by the damp winds from Lake Ontario. Here I contracted a bad cough, and became so hoarse that I could hardly preach to my congregation. It was not only distressing in a bodily sense, but extremely embarrassing to enter the pulpit in this condition. I had heard of Ack-er's English Remedy and, after service, I bought a bottle and began taking it. The next night my throat was nearly well, and I delivered my sermon without difficulty. In a few days I was thoroughly cured. I conceive it to be my duty to benefit mankind physically as well as spiritually whenever I can, and am glad to write these words in praise of this great old medicine. Those with sensitive throats and those who catch cold easily should certainly take Ack-er's English Remedy."

(Signed) Rev. EZRA TERRY SANFORD.
Sold at the 10c. and 15c. bottle, throughout the United States and Canada; and in England, it is 2s. 2d. per bottle. If you are not satisfied, return the bottle by your druggist and get your money back.

For Sale by H. C. Hitchcock, Globe.

SOCIETIES, LODGES ETC.

F. & A. M.

RULES AND TERMS.

HOURS OF SERVICE.—For the present the time of service will be 1440 minutes of the 24 hours, the force taking a full holiday on the 25th of February. Office hours from 7 a. m. till 10 p. m. After 10 p. m. the night bell will be adjusted so that urgent calls on business or sickness will be responded to by the "central." Sundays, even until 6 p. m., and closed from that hour until 6 a. m. on Mondays. These hours of service (practically continuous except on Sunday nights), are something unusual in small telephone systems without extra charges. We are here to serve our patrons in the best manner possible.

TERMS TO SUBSCRIBERS.—To all business

houses, 15¢ per month; residences, within a reasonable distance of the central office, \$2.50 per month. A fee of \$10 is charged for placing each phone. For the present, and until the town is thoroughly wired, urgent messages will be delivered for subscribers within the town limits free to subscribers. Use of phone in town to non-subscribers, 10 cts.; out of town to non-subscribers, 25 cts.
